

Walk Report for 2nd May 2024

After a very wet night 4 Oakley ramblers set off for Crondall on 2nd May armed with our waterproofs which thankfully we didn't need. We completed a 9-mile circuit starting and finishing by the church in Crondall. We headed off across fields towards Well, soon coming across a large hole recently dug by a badger. After reaching Well, we turned North skirting farmland and crossing more fields, stopping for lunch with views towards Odiham as the mist lifted. As we came back into Crondall we were delighted to see three young hares playing in the fields. Quite a day for seeing wildlife.
